Project Title: *This is Us* Website

I want to build this site as multiple pages that mirror the categories of the Wikipedia page for the TV show *This is Us*. Only one cast photo and the show logo is on the main *This is Us* Wikipedia page, but photos of each actor exist on their respective Wikipedia pages, and photos are otherwise easily accessible. Typical site navigation either across top or on side

- **Home Page/Summary of the Show -**
- **Cast & Characters** (main characters and 1 or 2 recurring ones)
- **Critical Response, Ratings & Press** (how show fits into our current TV culture and country in general)
- **Awards & Nominations**
- **Footer with sources**
